

Surface Bolt - extended 355mm

Product Images

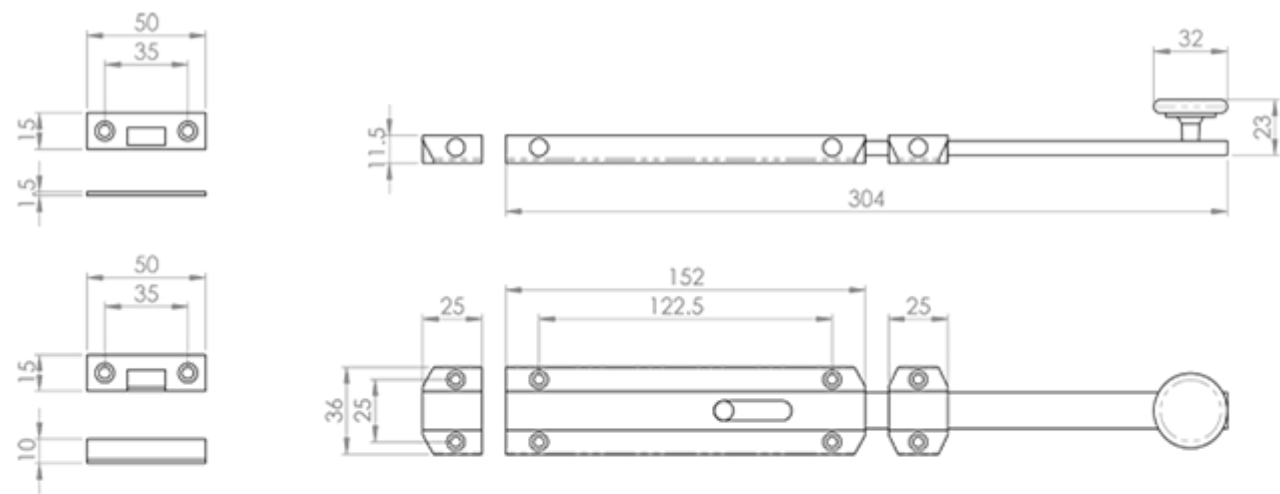

Description

Surface mounted door bolt with an extended handle. The longer handled extension allows easier use for those low or higher fittings where a

conventional sized bolt would make reaching awkward. Smooth operation, integral ball and spring mechanism for positive location of the bolt when closed. Comes with a selection of three strikes for use with inward and outward opening doors ensuring versatility in various applications. Flat sliding barrel offering more security than a conventional barrel bolt. Extended version of the standard surface bolt. Bolt extends to 355mm total. Comes with a 10 year mechanical guarantee. Provides extra home security for peace of mind.
